

VERSION 3.6 e-INCIDENT/Progress Notes – MARCH 2010 RELEASE

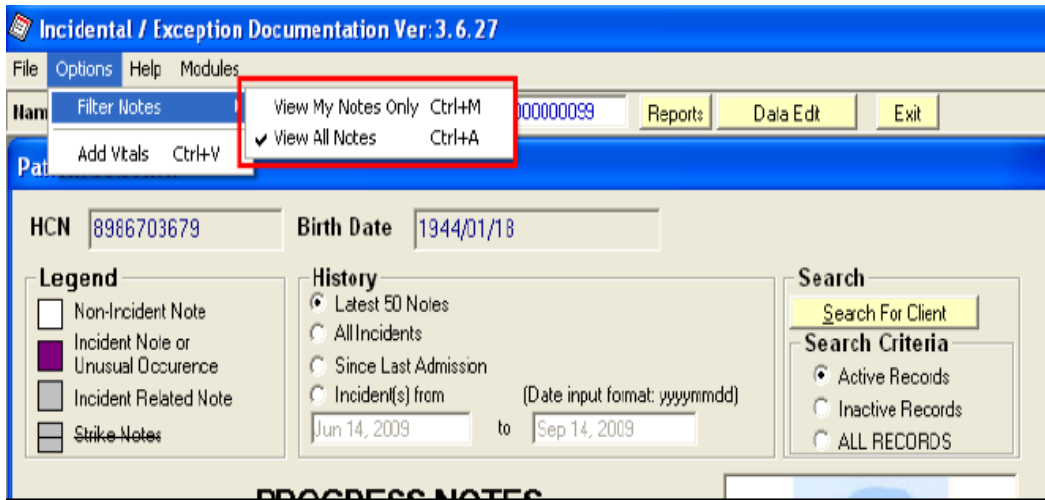

Purpose:

This release Notes provides important updates and improvements in the MED e-care e-Plan.

In this release, changes have been made to the database and software, including several enhancements to better the functionality. Any and all suggestions are welcome and can be sent to support@mede-care.com. Thank you for purchasing a MED e-care Software Solution Systems.

Items	Changes/Additions
Reports	Added a new filter that will allow the user to only view his/her notes.

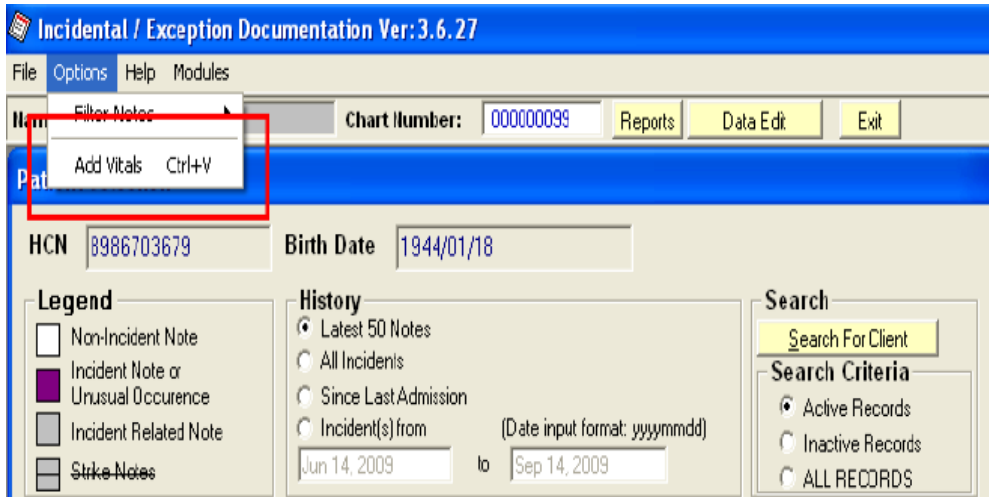

The screenshot shows the 'Incidental / Exception Documentation Ver: 3.6.27' window. The 'Filter Notes' menu is open, showing two options: 'View My Notes Only Ctrl+M' and 'View All Notes Ctrl+A'. The 'View All Notes' option is selected with a checkmark. Below the menu, the patient information section shows HCN: 8986703679 and Birth Date: 1944/01/18. The 'Legend' section includes checkboxes for Non-Incident Note, Incident Note or Unusual Occurrence, Incident Related Note, and Strike Notes. The 'History' section has radio buttons for Latest 50 Notes, All Incidents, Since Last Admission, and Incident(s) from (with date input fields for Jun 14, 2009 to Sep 14, 2009). The 'Search' section includes a 'Search For Client' button and radio buttons for Active Records, Inactive Records, and ALL RECORDS.
