MED e-care Health Care Solutions
together with
MDS RAI Research Network
are offering you a great
learning opportunity!

MDS RAI Research Network consists of
a team of experts from the University
of Alberta, York University and a number of
Registered Nurses and Accountants.

The main goal of the team is to provide
educational training on all aspects of MDS as it
relates to funding, trends and regulations.

MDS RAI Research Network
incorporates more than **80 years**
of combined research and
clinical experience.

Ideal For:

**RNs, RPNs, Nurse Assessment
Coordinators, Health Information
Professionals, DOCs, Administrators, HINs**
and members of any Interdisciplinary
Teams involved in clinical documentation.

Introduction to MDS

- explaining the benefits of MDS

The Mechanics of MDS

- the basics of MDS and identifying
the types and timing of assessments

Coding and Assessing Accurately

- describing the relationship between the purpose of the MDS
and the types of questions that appear on the MDS

Resident Assessment Protocols

- identifying and clarifying the four parts of the RAP

How MDS contributes to Care Planning

- describing the relationship between the RAI process, the
care plan, and quality resident care

MDS 2.0 Quality Indicators

- understanding the development
and benefits of the Quality Indicators

Resource Utilization Groups III

- understanding the development of the
RUG-III classification system

Quality Measures and the MDS 2.0

- identifying the objectives of the
Nursing Quality Initiatives

Comment about the educator, Dr.A.Paul Beaulne DHA

**"Through his exceptional education sessions Paul has
taught me that the RAI tool, and the reports the
software brings forth, if used properly can benefit all,
the patients and the organization. He is a true
champion and visionary in his field."**

Theresa Gottschalk RN, RAC-C
MDS/NRS Data Coordination, Rouge Valley Health System
